

Alternative energy supply for the facilities of **Municipal Enterprise "Cherkasyvodokanal"**

**Wind power plant (WPP) at the
Dnipro water treatment plant**

Alternative energy supply for the facilities of Municipal Enterprise "Cherkasyvodokanal"

Construction of a 1MW
wind power plant (WPP) at the Dnipro water
treatment plant

**The total cost of the project
≈ 2 000 000 EUR**

Purchase of a wind power plant and a 1MW container-type cogeneration gas-piston unit for the Dnipro water treatment plant

The projects include the following works:

purchase of equipment

installation of equipment

commissioning works of the wind power plant;

electric capacity of 1MW

Social significance of the projects:

provision of 24-hour water supply and drainage for the residents of Cherkasy, in conditions of war and blackouts

reducing the risks of environmental pollution

269 000 residents of the city will receive high-quality centralized water supply services
